1. Overview

Ultra Forge Studio – Low-Fi Sci-Fi Starter Pack is a ready-to-use audio solution for games, trailers, ads, and interactive media.

The package includes:

- Cinematic low-fi sci-fi music tracks
- Seamless ambient loops
- Two advanced audio player scripts

- Fully set up demo scenes
- UI-ready controls (buttons & sliders)

Designed for **Unity 2021.3+**, compatible with **Unity 6 LTS**.

2. Package Contents

- Full music tracks (WAV + MP3)
 - Loopable ambient clips (WAV + MP3)
 - UltraForgeMusicPlayer.cs
 - UltraForgeLoopPlayer.cs
 - Demo UI sprites and backgrounds
 - 4 demo scenes (music & loops)
 - This documentation
-

3. System Requirements

- Unity **2021.3 LTS or newer**
 - Any render pipeline (Built-in / URP / HDRP)
 - Works in **2D & 3D projects**
 - No external dependencies
-

4. Folder Structure

3. Folder Structure

The package follows this structure inside Unity:

Assets/

└─ ULTRA FORGE STUDIO/

- └─ Low-Fi Sci-Fi Starter Pack/
 - └─ Demo Scenes/
 - └─ LOOPS DEMO MP3.unity
 - └─ LOOPS DEMO WAV.unity
 - └─ MUSIC DEMO MP3.unity
 - └─ MUSIC DEMO WAV.unity
 - └─ Documentation/
 - └─ Ultra_Forge_Studio_LowFi_SciFi_Starter_Pack.pdf
- └─ Scripts/
 - └─ UltraForgeMusicPlayer.cs
 - └─ UltraForgeLoopPlayer.cs
 - └─ UltraForgeAudioSourceSliderSync
- └─ Sprites/
- └─ Materials/
- └─ VOLUME 01/
 - └─ WAV/
 - └─ Ambient/
 - └─ Beyond the Red Nebula/
 - └─ Celestial Drift/
 - └─ DEEP/
 - └─ Shadow Circuit/
 - └─ Temple of the Stars/
 - └─ MP3/

└─ Ambient/

└─ (same structure as WAV)

5. Demo Scenes

The pack includes **4 demo scenes**:

1. **MUSIC DEMO WAV** – Full tracks (WAV)
2. **MUSIC DEMO MP3** – Full tracks (MP3)
3. **LOOPS DEMO WAV** – Ambient loops (WAV)
4. **LOOPS DEMO MP3** – Ambient loops (MP3)

Each demo includes:

- UI buttons (Play, Pause, Stop, Next, Random)
- Volume slider
- Pitch slider
- Repeat logic already configured

6. Quick Start (Step-by-Step)

Music Player

1. Create an empty GameObject
2. Add **AudioSource**
3. Add **UltraForgeMusicPlayer**
4. Assign music clips to the Playlist array
5. Press Play

Loop Player

1. Create an empty GameObject
2. Add **AudioSource**
3. Add **UltraForgeLoopPlayer**
4. Add Loop Entries and assign clips

5. Press Play

7. UltraForgeMusicPlayer – Usage

Features

- Sequential or random playback
- Auto-play modes
- Loop single track
- UI-ready functions
- Volume & pitch control via sliders

Playback Modes

- Play only on Play button
- Auto play first track
- Auto play all tracks
- Auto play random tracks

UI-Callable Methods

- Play()
 - Pause()
 - Stop()
 - Next()
 - Previous()
 - PlayRandomTrackNow()
 - SetVolumeFromSlider(float)
 - SetPitchFromSlider(float)
 - ToggleLoopSingleTrack()
-

8. UltraForgeLoopPlayer – Usage

Features

- Seamless loop playback
- Per-loop volume & pitch variation
- Global volume & pitch sliders
- Repeat control per loop or globally
- Random or sequential loop selection

Repeat System

- Fixed repeats (example: 3 / 5 / 10)
- Random repeat range
- Optional infinite looping

UI-Callable Methods

- Play()
- Pause()
- Stop()
- Next()
- PlayRandomTrackNow()
- SetGlobalRepeatCount(int)
- SetRandomRepeatGlobal(bool)
- ToggleLoopSingleTrack()

9. UI Integration (Buttons & Sliders)

Volume Slider

- Range: 0 → 1
- Connect to:

UltraForgeMusicPlayer.SetVolumeFromSlider

UltraForgeLoopPlayer.SetVolumeFromSlider

Pitch Slider

- Slider range: 0 → 1
- Internally mapped to:

Pitch Min → Pitch Max (default 0.33 → 3.0)

Important

Ensure your **Slider Min/Max values match the script mapping**, otherwise pitch may appear incorrect.

10. Repeat Presets (Recommended)

For quick UI buttons, recommended presets:

- **3 repeats** → short ambience
- **5 repeats** → balanced
- **10 repeats** → deep atmosphere

Example UI buttons:

- Repeat x3
 - Repeat x5
 - Repeat x10
-

11. Audio Formats

- **WAV**
 - Higher quality
 - Best for PC / Console
- **MP3**
 - Smaller size
 - Best for Mobile / WebGL

Both are included so developers can choose.

12. AI Usage Disclosure

Some of the descriptions and documentation for this package were written with the assistance of AI tools.
